EXHIBIT

The 100-year anniversary of the Russian State Sanitary and Epidemiological Service: A century on guard of health and well-being

5 – 9 December 2022

All-day

**Space near Conference Hall XIX and «the Passerelle»,
Third Floor of E building, Palais des Nations**

Russian Federation. Federal Service for Surveillance on Consumer Rights Protection and Human Well-being (Rospotrebnadzor) will organize the Exhibit "The 100-year anniversary of the Russian State Sanitary and Epidemiological Service: A century on guard of health and well-being".

World went through a long and difficult period before it learned how to control dangerous bacteria and viruses. Above all, it was a path of gaining knowledge and skills, such as the complex process of creating vaccines and establishing simple rules of hygiene.

For decades, our country has been accumulating best practices for ensuring epidemiological security.

The exhibit will showcase historical photo and video materials depicting the key stages in the establishment and development of the Russian State Sanitary and Epidemiological Service. The service was established in 1922. All the most significant stages of the exhibit are divided into 5 blocks: 1920's-1940's, 1950's-1960's, 1970's-1980's, the modern age.

The Russian Mobile laboratories will also be feature at the exhibit. It will have the opportunity to learn about the evolution of mobile laboratories and get to know it current use in different countries of the world.

During the exhibit guests will have a unique opportunity to become acquainted with Russia's contribution to the implementation of Article X of the Biological Weapons Convention.
